Topic: Career Counseling with 20-Somethings: Challenges and Strategies

Presentation Description:

Recent college graduates and other young adults often face significant challenges in the job search process. We as career professionals offering assistance to this population can benefit from understanding these challenges and developing strategies to help young clients navigate the process. In this presentation, we will explore these issues, including external factors (e.g., related to workplace trends), generational factors, and individual characteristics. Heidi will provide examples from her own practice, and offer effective techniques and approaches to guide 20-somethings in the career development process.

Presenter: Heidi Ravis, EdM, is a Licensed Mental Health Counselor, Board Certified National Certified Counselor and TeleMental Health Counselor. In her 25+ years as a career counselor, she has worked with diverse client populations in a range of settings including consulting, higher education, community mental health, and private practice. She currently consults for REA – Partners in Transition, The Muse, Vermilion Talent, and Hand & Associates while maintaining a private career counseling practice in Westchester County.
